

# HIRE SANDER FOR LIQUID FLOOR WITHIN THE 7 DAYS

**Weekly Hire: £320.00**

Do you have a liquid screed floor    that has been poured in the past 7 days and you want to remove the surface skin as recommended by the manufacturers before the surface can be tiled? Using a single head 17" rotary machine 110v with 5kva transformer that connects to 240v mains and uses double-sided Carborundum sanding discs to take the surface skin only off and therefore enables the screed to dry out naturally and ready for when dried out for tiles to be applied...ask about our special 1 day rates that start from...
