

# WH FS4

## FS4 165MM DEPTH OF CUT

415v 3 PHASE 32 AMP 5 PIN

### Specification

Motor 5.5kW

Power 7.5Hp

Maximum Blade Capacity

18"/450mm

Maximum Cutting Depth 165mm

Weight 105kg

Requires Min 15kva Generator

The CS451-E is highly manoeuvrable and easy to use, enabling it to be used for a wide variety of internal and external cutting applications.

The CS451-E has adjustable handle height, continuous depth control with hand wheel and gauge, rear wheels in recess from the cut (making it easier for the operator to cut along an opened trench) as well as a handy parking brake.

- Right hand cutting capability (only)
- Manual raise and lower
- Optimised weight distribution providing outstanding cutting performance
